

RASHMI UNHALE

Full Stack Developer (.Net | Angular)

Veraval, 362266 • +91-7016814733 • rashmiunhale18@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Enthusiastic and dedicated Full Stack Developer with 2+ years of combined professional and freelance experience across .Net, Angular. Proven ability to deliver end-to-end features — from REST APIs and polished frontends. Experienced in healthcare integrations (ABHA/NHA), POS systems, fleet management, and e-commerce platforms. Eager to contribute to a dynamic team in a challenging environment.

EXPERIENCE

Full Stack Developer | [ARK Infosoft](#) | Dec 2024 – May 2026

Doctor Diary – ABHA Integration (Primary Project)

- Led end-to-end ABHA (Ayushman Bharat Health Account) integration into the Doctor Diary web application, handling frontend (Vue.js), backend (.NET), and MSSQL database layers.
- Designed and created new database tables and updated existing ones; wrote and optimised stored procedures (SPs) to support ABHA workflows.
- Built and consumed REST APIs for ABHA flows including patient linking, health record creation, bundles.
- Implemented frontend UI changes in Vue.js to accommodate new ABHA screens and user flows, ensuring a seamless user experience.
- Participated in demonstrations of the ABHA integration.

Doctor Diary – Core Application

- Worked on the general Doctor Diary web application — resolved bugs, developed new functionalities, and handled feature enhancements.
- Developed the Hospital Expansion module from scratch, covering API design, backend logic, and Vue.js frontend.
- Collaborated with the mobile team to debug backend issues affecting the mobile client.

Paintastica (Angular — Frontend)

- Contributed frontend development tasks for the Paintastica project using Angular.

Flythai Web Application (.NET MVC)

- Delivered assigned tasks on the Flythai web application, built on ASP.NET MVC.

HubBroker Website (Umbraco CMS)

- Completed two tasks on the HubBroker website using Umbraco CMS; self-onboarded to the platform via documentation (no prior Umbraco experience).

Freelance Full Stack Developer

- Built web applications using Angular and .NET Core, covering UI development and REST API integration.
- Contributed frontend development for a Restaurant Page project (Angular).
- Handled miscellaneous tasks including scripting and manual testing.

Software Development Engineer | [Gateway Corp.](#) | Jan 2023 – Apr 2024

- Developed and maintained a Point-of-Sale (POS) System using .NET and Angular.
- Contributed to the FleetMaster project as a Full Stack Developer, improving performance and usability.

SKILLS

- **Languages:** JavaScript, TypeScript, C# (.NET Core), Python
